Sub- Creation of Asset ID and Geo-Tagging Targets

Madam/Sir,

Kindly note that the Ministry of Rural Development, Government of India has communicated State wise Targets for Asset ID creation and Geo-Tagging to be achieved within **30th April 2017**. Any asset completed in the field should immediately be made available in Bhuvan portal for Geo-Tagging. This is a simple process involving only creation of Asset ID in the MIS by designating the Asset either as Primary or Secondary. Ministry has taken a stand that all assets completed in the MIS should be made available in the Bhuvan Portal within 7 days of such completion. Naturally concerted efforts should be made in the field to mark all completed Assets by end of April 2017.

Accordingly, the districts target for Asset ID creation in the month of April 2017 (30.04.2017) is fixed at the level of completed assets against which no Asset ID is generated as on 31.03.2017. Annexure-I to this effect is enclosed for your reference.

Then comes the issue of Geo-Tagging of the completed Assets against which ASSET ID, have either been generated or likely to be generated. We would suggest each Gram Panchayat be given a target of **Accepting three (3) Geo-Tagged Assets for the remaining days till 30.04.2017**. The details are given in column E of the table (Annexure-II). If we could do that, it would be possible for us to add 2.00 Lakhs Geo-Tagged Assets in the Bhuvan Platform by 30.04.2017

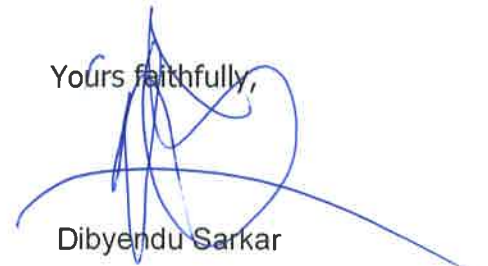

New Rules of Geo-Tagging and Moderation

Works are to be geo-tagged mandatorily within one week of completion of the work.

Each Geo-Tag uploaded by the MSE, should be moderated maximum within 48 hrs by the GAS.

I am confident that all the field functionaries will rise to the occasion and ensure that we achieve our target within the stipulated time.

Yours faithfully,

Dibyendu Sarkar
